

# About Semta Apprenticeship Service

**Semta Apprenticeship Service works with Advanced Manufacturing and Engineering (AME) employers across the UK to maximise the return on investment from the recruitment of apprentices – including using the apprenticeship levy for employers in England. Semta Apprenticeship Service effectively plans and delivers tailored apprenticeship programmes for any size of business, working as an integral part of the employer team to support or manage the learner’s journey, from the start of their apprenticeship through to completion.**

Semta Apprenticeship Service is a division of the Semta Group, a charitable body. Profits are reinvested in skills development for the future of the AME sector, in areas such as research, policy advice, skills awards and helping employers anticipate engineering skills trends.

## Our services

## Contact us:

## Apprenticeships we offer

We will work with you to identify the right apprenticeship programmes for your business. And if there's not an apprenticeship available to meet your needs we can offer advice and support on the new standards development process.

### The apprenticeships we offer range from intermediate level to higher and include:

Advanced manufacturing Engineering	Engineering Woodworking, Pattern Making and Model Making	Laboratory and Science Technicians
Aerospace Engineering	Fabrication and Welding	Marine Engineering
Automotive Engineering	Improving Operational Performance Performing Manufacturing Operations	Materials Processing and Finishing
Business Administration	Improving Operational Performance Business Improvement Techniques	Mechanical Manufacturing Engineering
Customer Service	Installing and Commissioning	Metal Processing and Applied Operations
Engineering Maintenance and Installation		Performing Engineering Operations
Engineering Technical Support		Warehouse and Storage
Engineering Toolmaking		

## Apprenticeship standards

We will also be delivering new apprenticeship standards from September 2017 including:

- Mechatronics Maintenance Technician
- Products Design and Development Technician
- Toolmaker and Tool and Die Maintenance Technician
- Technical Support Technician

We can also deliver others depending on employer needs.

## Five reasons to use us

- 1 Our staff are experts** – They are advanced manufacturing and engineering specialists, so they can support you to develop your workforce. We invest time and money in training and upskilling our staff, ensuring their knowledge is up to date and to industry standards.
- 2 We go above and beyond** – We know that every business is different and we work with a wide variety of companies, ranging from SMEs to large national multi-centre organisations. We'll work with you to create bespoke training that matches the needs of your business.
- 3 Quality** – Our success rates are excellent and above the national average.
- 4 Free recruitment service** – We appreciate that recruiting staff can be costly and time consuming. That's why if you recruit an apprentice with us we will promote the vacancy, source suitable candidates and even carry out pre-screening to make the process easier for you.
- 5 Ofsted said** – "Semta's apprentices develop good attitudes to work, are highly motivated and make a valued contribution to their employers' businesses."
